

Organization

The Study Group for Nutritional Research (*Arbeitskreis für Ernährungsforschung: AKE*) is a non-profit organization with approximately 450 members. It was founded in 1970 by the medical doctor Udo Renzenbrink in order to research and disseminate information on the essentials of holistic and ecological / organic nutrition. The Study Group works independently and does not pursue economic gain. We finance ourselves through member dues and donations. The basis of our work is Anthroposophy. Our office is located in Bad Vilbel. Regional activities take place in the Rhein-Main area.
